FROZEN VEGETABLES

Healthy, great tasting vegetables

Pasfrost lies in the heart of West Flanders in Belgium, so we benefit from all the advantages the region has to offer such as, the mild maritime climate, the fertility of the soil and the know-how of many generations of farmers which all together provide us with a rich assortment of healthy, great tasting vegetables.

European leaders in frozen vegetables.

Although they are locally based for production purposes, they sell their frozen vegetables worldwide. They have customers in over 90 countries across the 5 continents. As a result Pasfrost is one of the European leaders in the production of frozen vegetables.

Pasfrost has an annual production capacity amounting to 115,000 tons of deep-frozen vegetables, with place available in the new production hall for supplementary production lines.
